

Welcome

**We are Noisebridge.**

Noisebridge is as open as possible. Typical "open hours" are from 11:00am-10:00pm, however this varies greatly depending on scheduled events and who is using the space on any given day. Visitors of all ages and skill levels are welcome any time. Just ring the doorbell and we'll buzz you in. During scheduled events, we are more likely to have volunteers available to show you around and make introductions.

Come and Create With Us!

# Noisebridge Hackerspace

Currently located in the heart of the San Francisco Mission district, Noisebridge needs a new home.

Help Noisebridge find its forever home!

2169 Mission Street — <https://noisebridge.net>

## What is Noisebridge?

Noisebridge is a 5,200 square-foot, San Francisco hackerspace for technical-creative projects, doocratically run by everyone. We are a non-profit educational institution intended for public benefit. Everyone is welcome to use our many resources. Find others to create with, help with your projects & help others with their projects.

Our 5,200 square-foot space (483m<sup>2</sup>) contains an electronics lab, machine/wood shop, sewing/crafting supplies, two classrooms, conference area, and library. Everyone is welcome to use our many resources. Find others to create with, help with your projects & help others with their projects. Learn, teach, share. Come to Noisebridge and create!

### SparkleForge

Designed to be a cleaner workshop for plastics and metals, SparkleForge supports laser cutting, welding, mold making and more!

### Classes

Many classes are hosted weekly on topics including; Python, Haskell, Circuit Hacking, Game Development, Web Development, Lock Picking and more!

### Sewing Area

Home to a suite of Jukis, the sewing area is one of Noisebridge's most comfy-cozy enclaves.

### GNAR

GNAR is Noisebridge Audio Research.

Research and experiment on the subjects of sound, signal, and noise.

## Noisebridge Space Program

Noisebridge, one of the oldest hackerspaces in the United States, is losing our lease. We want to buy a building.

Noisebridge remains one of the few open hackerspaces in San Francisco where anyone can be empowered to learn and tinker with technology with the support of our community.

The fundraising team has set a goal of raising \$20,000 per month to support a bigger building with even more capabilities. People wishing to arrange a large, one-time donation may reach out to [secretary@noisebridge.net](mailto:secretary@noisebridge.net) to learn more.
